

**PEDIATRIC CARE • SUPPORTING • PARENTING**  
A Program of ZERO TO THREE

## HealthySteps Logic Model

HealthySteps transforms the promise of pediatric care to improve the health and well-being of babies and young children so that they thrive in school and life. We set the standard by integrating a child development specialist into the primary care team to promote healthy relationships, foster positive parenting, strengthen early social and emotional development, and ensure access to services that address both child and family needs, with a particular emphasis on families living in low-income communities.

**PEDIATRIC CARE • SUPPORTING • PARENTING**  
 A Program of ZERO TO THREE

# HealthySteps Logic Model

HealthySteps positively affects both children and their families. Many of the outcomes listed below were demonstrated in a large national evaluation, whereas others were indicated in local evaluations or other published research. The National Office continues to assess and refine our understanding of the model’s outcomes today. To learn more, visit [HealthySteps.org](https://HealthySteps.org).
