

New Jersey Crosswalk of HealthySteps-Aligned Services with Billing Codes and Provider Types

HealthySteps National Office Policy & Finance Team

About This Document

Have you ever wanted a list of the reimbursable HealthySteps (HS)-aligned services and corresponding list of providers who can render the services to assist with hiring decisions or to quickly identify “open” codes in New Jersey? If so, this document will provide you with helpful guidance. Knowing the HS-aligned services open in New Jersey, their associated billing codes, and the professionals eligible to render the service and/or receive insurance carrier reimbursement for each service will assist your site in understanding potential billing opportunities and may assist you in the decision-making process when hiring a HS Specialist.

The tables on the following pages outline HS-aligned services, the service types, and the provider types that can render the services. At the bottom of the table, you will find a tally of the number of billable codes for each provider type.

In summary, the provider with the most opportunities to currently bill for HealthySteps-aligned services in New Jersey, under Medicaid, are licensed clinical psychologists.

Note 1: Licensed social workers cannot bill as part of a private physician practice group. The social workers located at other practice types that are licensed by the New Jersey Department of Health (DOH) can enroll as non-billing providers and can bill for rendered services under the facility Medicaid provider identification number.

Note 2: Licensed marriage and family therapists and licensed professional counselors can render non-core services under their scope of practice (therapy), but the services must be added into a core provider (licensed clinical psychologist, licensed clinical social worker) encounter, and may not be independently billed to NJ FamilyCare.
